Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claims 1-11 are considered allowable over the prior art, as the prior art does not explicitly disclose the plurality of musical instrument assemblies with a processor/storage member for storing musical sounds associated with a musical instrument for a preprogrammed song, a control member for controlling the status, an initiating selection element for selecting the assembly as a master assembly, and communicating the control information from the selected master assembly to other musical assemblies to initiate and play the preprogrammed song.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hall, Segan et al '154, Chan, Wronowski, Ting, Segan et al '319, Hikawa, Wang et al, Forsse et al, and Betancourt are further cited as showing related teachings in the art. These teachings do not disclose the claimed invention as described above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Donels whose telephone number is 571-272-2061. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2800 ext 37. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
